SANYPRO

BATHWARE

TIMELESS AESTHETICS

In its natural state, the bathroom space
evokes a feeling of total well-being.

There is real progress
only when the benefits
of a new technology
become for all.

-Henry Ford

SANYPRO

Timeless collections, elegant and essential but still vivacious, modern but with no compromises and meeting temporary trends. A distinguished style, an inspiring new classic bathware collections that leaves space for personal interpretation. It goes beyond aesthetics and beyond the design, exploring new glossy finishes.

Natural modern colours and new materials open up new style horizons. Resistant materials with discreet thickness underpin a collection, boasting pure volume and surfaces. It evokes unparalleled ceramic emotions with the simplicity of a water functional designs.

BATH SPACE BECOMES **ELEGANT**
AND **EASY** TO LIVE IN.

SANYPRO history

SANYPRO was born in 2017 from a simple yet passionate idea of Dushyant Sompura, founder of the company: a new bathware collection characterized by a recognizable lifestyle, timeless yet always emerging with the current trends but with deep roots in the past.

SANYPRO BATHWARE is a quiet young company factory with production of wash basins and sanitarywares. After researches driven by passion and expertise, the first collection was entirely manufactured in INDIA. Creations allow the users to enjoy personal spaces that offer a daily Private Wellness experience in which they celebrate daily luxury WATER. Pure timeless shapes inspired by formal elegance and a widely versatile collection material and finishes. Beyond fashion and fleeting trends, perfectly recognizable and liveable day after day. Giving a feel of ease in formal and every day occasion.

whilst the geometry unravels simplicity
with the decorative richness.

SANYPRO handmade

The use of finest quality raw materials, permits us to protect environment. Products are made with high percentages of kaolin making it purer and finer. Fire Clay, is obtained using less kaolin and more organic, less chemically inactive materials. To maintain product harmony, high quality of plaster moulds and glazes with proper color tones are used to circulate and maintain the principle of water absorption. After having the pre finished product, the finishing is crafted by the expert masters manually. Glazing is beautifully applied with hands to internal and external surfaces with intense care to make vigorous and ideal product.

THE CHARM OF MATERIAL
THE BEAUTY OF CRAFTING.

SANYPRO

BATHWARE

Ceramic glue is added into the mold.

Complete product is taken care of and polished.

The last technical process

product test are performed. Functions are taken care of.

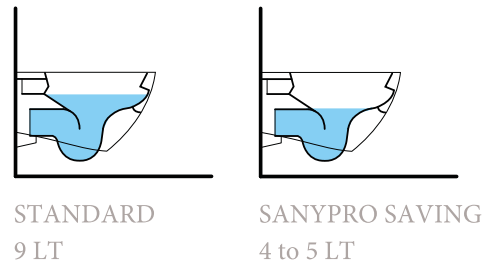

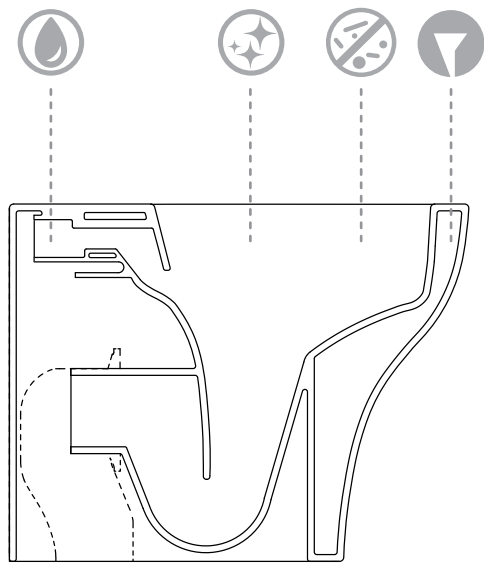

Applying an Organic paint layer that guarantees hygiene and aesthetic look of the overall product.

The fire process

The product is cooked at 1250 ° C and ready for our customers.

Innovations in the name of aesthetics and technology
technology and design combine to create a contemporary corner composition.

- Easy cleaning • Water saving
 - Hygienic • Rimless
-

SANYPRO technology

Sanypro with its expertise, created a water saving flush systems which able to reduce the wastage of water. This guarantees a considerable saving of water at each use. Water enters systematically and distributes evenly to the entire surface. With the rim-less technology, the toilet is cleaned with greater strength and without splashing, ensuring more effective results and maintaining the strengths and aesthetics of the products.

Environment Friendly
extremely durable and quick to clean.

SANYPRO natural

While taking care of water emotions, we have completely respected nature's emotions too. Considering ENVIRONMENT at highest peak, we have used appropriate materials and used materials get recycled, creating less wastage. Minimal use of water in our bathware collection, proves our clever consumption without losing the aesthetics and technical quality. Sometimes all you need is just a tiny element of whole to add luxury to your bathroom.

MILESTONES TO SUCCESS

1990

ANCHOR CONQUERS THE WORLD

Switching to First Tunnel Kiln for Sanitaryware, company Started exports to Middle East and other Countries.

2001

NEW VENTURE

Foundation stone of Ariston Ceramic sanitaryware.

1969

BIRTH OF A TRADITION

Foundation was laid of SOMPURA CERAMIC Industry, includes tiles and sanitarywares.

1991

DESIGN TO WALL TILES

First ever S.S.I. Unit in India for Wall Tiles production Sompura Tiles "Action" Brand.

1985

SANITARYWARE INNOVATION

Started Production for Sanitaryware in down draft kiln. First Shuttle kiln for sanitaryware established.

1995

NEW BATHROOM CULTURE

The company begins New tunnel kiln European design for sanitaryware in Anchor Sanitaryware Pvt.Ltd.

SANYPRO

BATHWARE

TIMELESS AESTHETICS

2010

MORE HYGIENE

Innovation of ONE PIECE TOILET SET begins production globally.

2017

LAUNCHED SANYPRO

with a whole new range of SUITES - BASINS - BOWLS - WALLHUNG WC.

2012

ENHANCED CAPACITY

Reached production capacity of 3000 pcs per day - also availed CE certificate.

2003

HAND TO HAND SHAKE

Collaboration with Johnson Ltd. Expansion for more production started and become certified I.S.O. 9001-2000.

2015

UPGRADING TECHNOLOGY

Bought latest technology Turbo Blunger from Italy for making uniform slip. Upgraded to Robotic Glazing from Italy.

TIMELESS AESTHETICS

SANYPRO pedestal basins

The basic and pure beauty of the rigorous various forms entitle Pedestal, to be an icon of design. Its classical harmony, creates a “Modern-Traditional” design. A basin with a stand gives more power over design yet maintaining its functional aesthetics.

They come as half pedestal also which bears wall hung settings with dynamism. The balance creates a sophisticated

Environment with contemporary allure.

AVAILABLE COLOURS

White

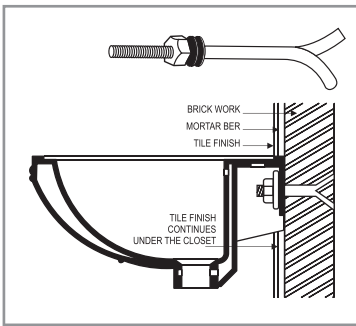

Ivory

Colours printed above may differ from original colours of ceramics.
For true selection, refer to actual samples or shade board.

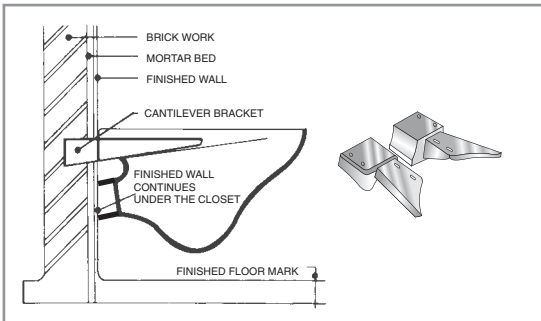

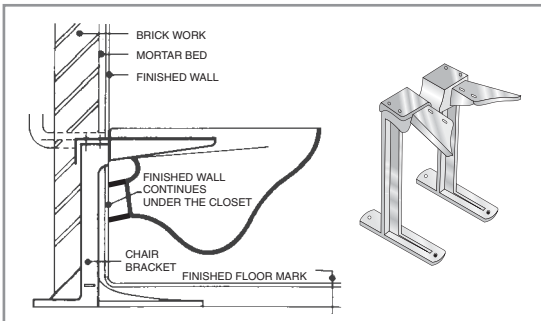

INSTALLATION

WALL HUNG BASIN

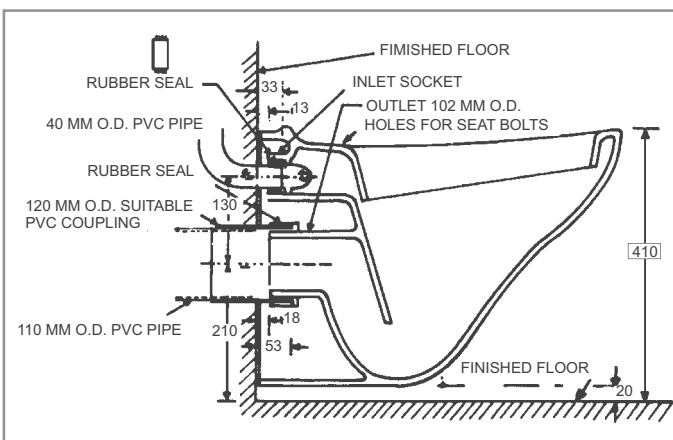

Fixing : The rag bolt should be first grouted into the wall using cement / concrete, (as shown) as per distance between slots provided in the wash basin. The bolts should be fixed perpendicular to the wall. Allow cement / concrete to set. Check if the Rag bolts are firmly fixed. Fix the Wash Basin in the bolt using Nut & Washer.

WALL HUNG

1. A cast-iron chair bracket grouted into the wall and the floor is recommended for use while installing Pan.
2. Cantilever brackets with provision of 4" of the brackets into the wall can also be used.
3. The cantilever brackets used should have the distance between the center of the back and front slots as 95 mm.
4. Ensure that while grouting the cantilever brackets into the wall, they are fixed in exactly the same plane. A distance of 180 mm between centers of the slots of one bracket to the centers of the slots to the other brackets has to be maintained while grouting the brackets.
5. For either type of fixing, please ensure that a rubber gasket is fitted between the bracket and the closet to provide adequate cushioning and protection from direct contact between the ceramic closet and metal brackets.

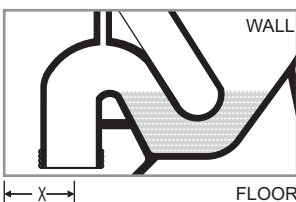

CONCEALED WALL HUNG

1. If the wall is going to be plastered for a thickness of 12 mm and a tile thickness of 6-7 mm, the projection of the bolts from the finished wall should be 66 mm only.
2. If the thickness of plastering and tile is less than the dimensions mentioned above, the bolts that are supplied along with the bracket should be moved into the wall by using a suitable spacer washer between the bolt head and the bracket frame.
3. The bracket should be buried into the floor so that the height from the center line of the bolt to the surface of the finished floor is 320 mm.

' S ' Trap

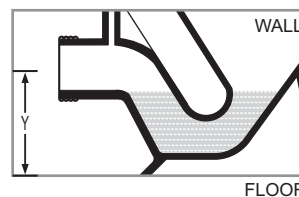

EWC TRAP SECTIONAL VIEW

The outlet (trap) of the water closet goes into the floor.

' P ' Trap

EWC TRAP SECTIONAL VIEW

The outlet (trap) of the water closet goes into the wall.

MAINTENANCE

A few minutes everyday... and a beautiful bathroom forever. Like any other part of your house, the bathroom can be made to look great and made to last if it is taken care of regularly. Here are some simple tips that can help you keep your bathroom space and span.

Wash Basin

The wash basin needs to be washed with a mild detergent at least once a day. After washing, the basin must be wiped dry to avoid water stains, especially on dark colours.

Closets

Use a plastic bristled brush with a plastic handle to scrub the toilet with a cleanser like Harpic, at least once a day.

After flushing the toilet, give it a "once over" with the brush to avoid minute discoloring.

Keep the toilet brush handy in a convenient stand/ cover nearby.

In the case of Vitreous China Sanitaryware like Silware toilets and basins, if there has been no maintenance over a long period of time, water deposits and discoloration can form on the surface of areas that get wet. In such cases, these stains/ marks can be removed with the help of a solution of dilute hydrochloric acid..

Clean with a soft cloth and warm soapy water.

Use a liquid cleaner at least once a week. Do not use powder paste, thinner or dry cleaning liquids.

To remove fine scratches, use Brasso or car rubbing compound and then polish with a polish cloth.

TECHNICAL & QUALITATIVE CHARACTERISTICS.

SR. NO.	TECHNICAL CHARACTERISTICS	INTERNATIONAL STANDARD	SANYPRO STANDARD
1	Dimensional Tolerance	± 2%	± 2%
2	Dimension Up to 5mm	± 5%	± 5%

11	Tissue Paper Test	Require to Pass	Passing
12	Ink Test	Require to Pass	Passing
13	Sponge Test	Require to Pass	Passing

INSTALLATION & MAINTENANCE TIPS

- 1 Use C.I. Brackets with rag bolts to install Wash Basin with or without pedestal. If Wash Basin is large in size than it is recommended to install on pedestal screwed to the floor.
- 2 All Wall Mounting E.W.C. to be installed with the help of C.I. Chair bracket as well as with heavy duty rag bolt with cap and rubber bush and outlet coupler.
- 3 All Floor Mounting E.W.C. to be fixed on the floor with help of Screwed and do not use Cement at the hollow portion of E.W.C.
- 4 It is recommended to clean regular with dry cloth / Mild Detergent to avoid stain & if required, diluted Hydrochloric acid may be used.
- 5 Do not use hard bristled / wire brush for cleaning to avoid scratches on wares.
